AdventHealth ED Care Pathway

Patient arrives in ED

Patient meets with MD/RN

If Patient is a danger to self or others, is gravely disabled due to mental illness, is under the influence of intoxicants, or is otherwise unable to care for him/herself – the patient will be classified as "At-Risk" and may be placed on a mental health hold or involuntary commitment.

Pt Monitoring checklist initiated and maintained throughout patient stay

Pt is observed by a same sex employee and is changed into green paper scrubs.

Belongings are inventoried and secured by security

Patient is medically cleared by the treatment team. Pt is allowed to sober, and if appropriate, a psych eval is ordered.

Pt is discharged home with referrals or to detox

Mental Health Hold or emergency commitments dropped.

Pt's given referrals

Pt leaves the facility in their street clothes, or blue paper scrubs

Pt is admitted to a inpatient psych

Pt maintains on a mental health hold.

15 min checks continue

Pt remains clothes in green paper scrubs unless an MD writes for pt to wear street clothes.

Pt is admitted to a medical floor

Pt remains on "At Risk" status as long as they meet criteria.

*Green paper scrubs

*Pt monitoring checklist

*1:1 or video monitoring

ALL INVOLUNTARY AND AT RISK PATIENTS SHALL WEAR GREEN PAPER SCRUBS UNTIL THEY ARE DISCHARGED, THE INVOLUNTARY STATUS IS REMOVED,
